

# Selleckchem.com

## **SelleckChem**

SelleckChem is a leading supplier of high-quality small molecule inhibitors and research reagents, dedicated to advancing biomedical research and drug discovery. With a comprehensive portfolio of over 120,000 compounds, including targeted inhibitors for diverse signaling pathways, we empower researchers in academia and industry to accelerate their projects. Each product is meticulously curated and rigorously validated for efficacy and safety, ensuring reliable results. Our commitment to exceptional customer support and rapid delivery makes us a trusted partner in the scientific community. Discover our innovative solutions and unlock new possibilities in health and medicine to drive your research forward effectively!

## **Life Science Group**

Life Science Group Ltd (LSG) is a UK-based manufacturing company providing custom biological and in vitro products to Pharma, Biotech, CROs, and universities globally. LSG is APHA approved and holds ISO 13485:2016, ISO 9001:2015, and ISIA Traceability certifications, focusing on Quality, Traceability, and Integrity. It has four divisions:

**Life Science Production (LSP):** Supplies cell culture sera, media, buffers, and custom reagents.

**Biospecimens:** Offers a broad range of human and animal samples for research.

**Antibody Production Service (APS):** Provides custom monoclonal and polyclonal antibody development.

**Diagnostic Kit Services (DKS):** Specialises in aseptic product filling, kit design, and packing within clean rooms.

## **Avidity Science**

A trusted partner to the global research community providing innovative water purification and delivery systems, Avidity Science was founded in 1969 and acquired by ATS in 2023.

Avidity Science in the UK is also an exclusive distributor for laboratory equipment, including NuAire CO2 Incubators and Biological Safety Cabinets, plus Systec autoclaves and culture media preparation.

Supporting our product portfolio is our Avidity Science service team, comprising 25 field-based service engineers, fully trained to install, commission, train and maintain our systems for our customers.

Life Science Innovator Since 1966

### **PHC Europe B.V.**

PHC Europe B.V. are specialists in the sales, support and servicing of temperature controlled biomedical products for sample preservation and storage, medical and pharmacy storage, incubation and cell & tissue culture. Our latest generation of products are designed to provide precision, high performance, energy efficiency and sample security.

### **Avantor**

Avantor® is a leading life science tools company and global provider of mission-critical products and services to the life sciences and advanced technology industries. We work side-by-side with customers at every step of the scientific journey to enable breakthroughs in medicine, healthcare, and technology. Our portfolio is used in virtually every stage of the most important research, development and production activities at more than 300,000 customer locations in 180 countries. For more information, visit [avantorsciences.com](https://avantorsciences.com) and find us on [LinkedIn](#), [X \(Twitter\)](#) and [Facebook](#).

### **Integra Biosciences**

Since 1965, INTEGRA has been dedicated to developing liquid handling solutions, fulfilling the needs of our customers in research, diagnostics and quality control. It is our passion to work side by side with our customers to understand their problems and meet their needs with innovative products. We are proud to offer the widest line of pipettes in the market, spanning from single channel mechanical pipettes up to 384 channel electronic benchtop platforms.

We are part of the global climate campaign and are committed to halving greenhouse gas emissions by 2030 and achieving net zero by 2050.
